- The monthly payment for the VPS can not be refunded – it represents the expenses of the Operator for the technical maintenance of the VPS.
The Subscriber is entitled to use uninterrupted the VPS during the paid period.

- In case of failure to comply with the abovementioned restrictions, the Operator undertakes the right to suspend the VPS services, without prior notice of the Subscriber.
- If the Subscriber violates regularly the restrictions (2-3 times) and takes no steps to improve the situation, the Operator undertakes the right to lock the Subscriber' VPS, without prior notice.
- If the Subscriber violates the restrictions and the rules, the Operator is entitled, with or without prior notice, to cease providing the services to the Subscriber and/or to delete all the Subscriber's resources.
- The Operator has the right to modify independently the restrictions and the rules in order to improve the operation of the system in whole and to improve the quality of the offered services.
- The Operator's inaction in case of violation by the Subscriber of the restrictions imposed by the tariff plans, does not deprive the Operator from undertaking the necessary measures to protect its rights, as well as, is not a waiver of its rights in case of committing a similar or alike violation.
- The disconnection of the VPS (at the request of the Subscriber, as well as at the initiative of the Operator) is considered a maintenance service, and not a refusal/suspension of the services, that is why the monthly payment remains unchanged.
